This course allows educators to select, examine, develop, and practice the congruent integration of brain-compatible instruction, research-based best practices, and interactive learning strategies in the classroom. In addition, participants will use problem-solving and critical application of these components to instruction for their own classrooms or other work with students. Participants will receive instruction in more than 20 interactive classroom strategies that can be taken back to their own respective classrooms.

*Please purchase and bring the textbook, *Classroom Strategies for Interactive Learning*, by Doug Buehl, (International Reading Association, 3rd edition, November 2008, ISBN-10: 0872076865, ISBN-13: 9780872076860) to the first class session.
